Learning in Hand by Tony Vincent

learninginhand.com is an educator's resource for using handheld computing in schools. You'll find lists of great software applications for Palm and Windows Mobile computers. Tony's podcast “Soft Reset” is an excellent way to learn more about handhelds in education. Also, there's a comprehensive listing of the best sites for educators, lesson plans, classroom management tips, and more.

K12 Handhelds

K12 Handhelds, Inc. provides schools with integrated solutions for mobile technology use in education. They focus exclusively on using technology in K-12 education and bring a great deal of knowledge and expertise in this area. They market “bundled” sets of handhelds and software. They also offer several free lesson units that can be installed on Palms using the SD Express Card from Grant Street Software. Currently they have Constitution Day and African History Month lesson units available for free.
